

# CAREER IN NANOTECHNOLOGY

---

# INTRODUCTION

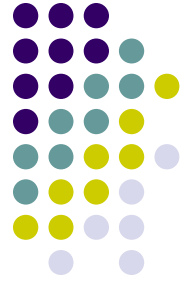

## NANO TECHNOLOGY

is the combined stream of

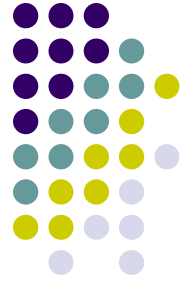

- Physics
- Chemistry
- Bioinformatics
- Biotechnology

# Job prospects

- Health organizations
- Pharmaceutical
- Medical
- Agriculture
- Food technology
- Environmental science
- Education
- Govt. organizations and departments
- Communication and media consultants

# ELIGIBILITY

## ELIGIBILITY FOR M.TECH(NANOTECHNOLOGY)

- B.TECH./B.SC. IN BIOTECHNOLOGY
- B.SC.(PHYSICS,CHEMISTRY,BIOLOGY)

# INSTITUTES

- Jawaharlal nehru centre for advanced scientific research, banglore
- I.I.Sc.,Banglore
- National physical laboratory,Delhi
- Solid state physics lab,Delhi
- National chemical lab,Pune
- Central scientific instrument oranization,Chandigarh
- Defence material store research &development organization,Kanpur
- AMITY INSTITUTE OF NANOTECHNOLOGY,NOIDA

# REMUNERATION

- A Person who have done M.Tech in Nanotechnology can easily get starting pay-20000-30000/month
- Experience is counted as an asset
- There are unlimited oppurtunities in this field in abroad and india in the future.
